## About Coza Hardware

Coza Hardware is the metal, plastic parts CNC Machining company located in shenzhen China. Coza Hardware is providing high-end customized manufacturing solutions for a number of international brands, with hands-on assistance from initial DFM to production and shipment for metal and plastic assemblies.

### Our Mission

To be precision, profession and perfection.

We only sell abroad. Precision and perfection is important for us. We assist hardware industry in the world with precise dimension parts and beautiful finishing products.

### We service industries

Mining, Agriculture and commumer goods...

## Application in

Ferry

Sport

Lighting

Milling Cutter

Smart Home

Agriculture machine parts

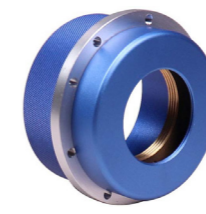

Aerospace and plane

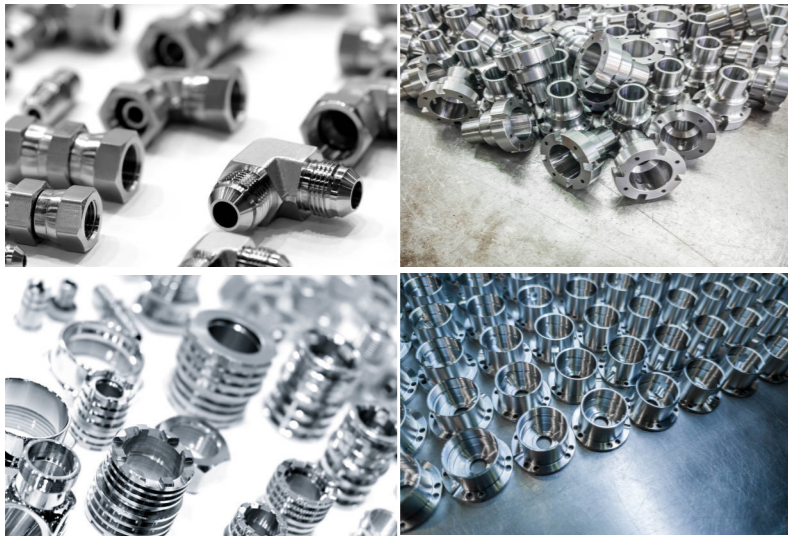

Products

Aluminium

Brass

Stainless Steel

Plastic injection

We take a look at your drawing and your needs then propose tooling investment and unit costs based on your business needs.

### Service and Solution

Plastic injection

We take a look at your drawing and your needs then propose tooling investment and unit costs based on your business needs.

Die casting

Titanium

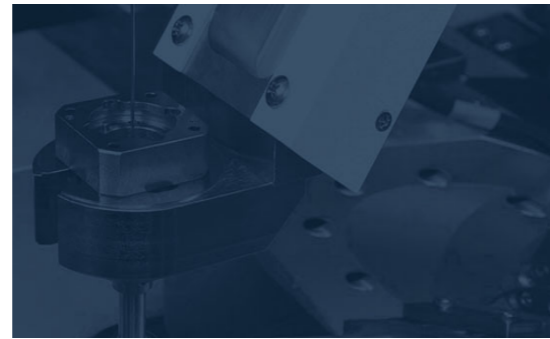

Stamping

We have the capabilities to manufacture complex, high precision stamping parts and assemblies.

Surface Finishing

- Powder Coating
- RAL & Pantone Color Matching
- Anodizing
- E-Coating
- Zinc Plating
- Polishing

## CNC processing

## Measurement

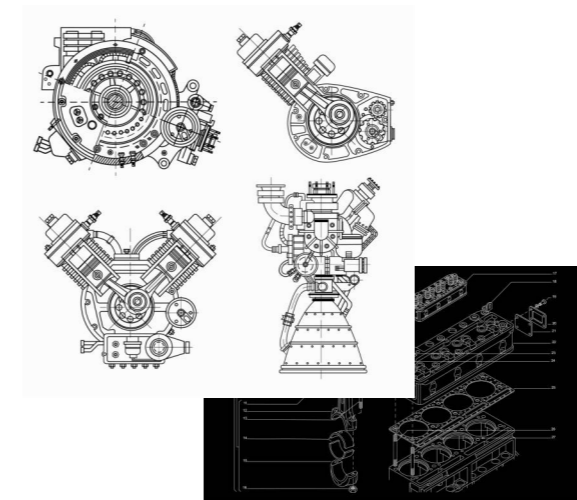

## How to get a free quote?

Quotation usually takes 12-48hours. We can provide quotation in 12 hours if we can get below detail information during working days.

In order communicate in a more efficient way, please provide us the following information together with your inquiry.

- 1) Detailed drawings ( CAD/PDF/DWG/IGS/STEP/JPG file is available )
  - 2) Preferable material, and your application environment. (if our engineer have a better solution on material and surface treatment for you, would you like to know more? If yes, send us your whatsapp number, we can have an audio talk)
  - 3) Preferable surface treatment.
  - 4) Order volume plan (per order/per month/annual).
  - 5) Any special demands or requirements, such as packing, labels,delivery way and lead time requirement.
- Let us know if your project is urgent, and your schedule, we will try our best to do better for you.

1 send us the drawing

2 wait 2 days

3 Coza Clear all questions we have

4 Coza Provides quotation

# FAQ

2. How do we guarantee the deliver time?

- 1) PMC department schedule up production plan once order confirmed.
- 2) We have production meeting every Monday morning to report the manufacture status and discuss the problems.
- 3) If any problem happened during production period, all related team members will pay much attention to it and solve the problem in time.
- 4) We tried our best to solve all problem without bothering customers. Our lead time delay rate is less than 1%.

3. How do Coza Hardware control the quality?

- 1) Our sales might ask as many questions as possible to double confirm with client for drawing before production.
- 2) Serious control and management for drawing.
- 3) Cooperated with quality material supplier.
- 4) Experienced programmers and machinists.
- 5) Self-checking during production and take record.
- 6) After products were well made, we will do surface and dimension inspection report.
- 7) Packaging department will double check surface.
- 8) The dimension report will be sent together with the shipment.

4. Is it possible to know how are my products going on without visiting your company?

Yes. We will offer a detailed production schedule and send reports with digital pictures which show the production process.

5. How to pay for the order?

There are 4 options to pay the order, Kindly choose the most suitable way for you to arrange it.

- 1) Telegraphic Transfer (TT), we have HK bank, US bank account for your options.
- 2) Paypal for small sample order

6. How can I get sample?

- 1) We offer free stock-sample to show you craft detail, you pay for shipping cost.
- 2) For sample of your own design, you needs to pay for the mold set up charges plus sample handling charge. Samples production takes 5-7 working days after set up charge received & size drawing approval.

7. What Shipping Method?

Most of the goods were sent out by international airway express company like DHL, UPS, FedEx, TNT. Usually takes around 3-7 working days (door to door service).If you have your courier account, we will provide you shipping contact information, you can schedule it with your courier company. Besides, we can arrange shipment via train or seaway.

8. Can you do me a special favor if I need the products urgently?

Yes, you need to tell us your difficulty, we are glade to help for special cases. We can work overtime to settle it. But please do not abuse it.

9. I want our product design non-disclosure to any other people or companies; can we sign NDA?

Sure, we don't display any customers' design or show to other people, we can sign NDA.

We'll design package add value to our products, so we provides flexible package for your need

Blister holder package

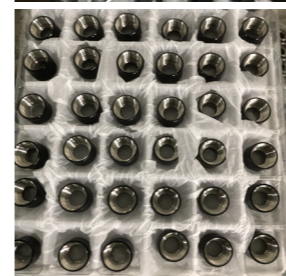

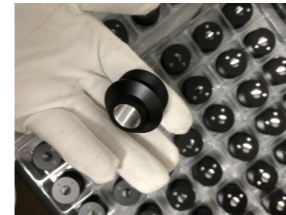

Paper box package

EPE Foam bag

Plastic bag

EPE Foam

EPE Foam+ Bubble Bag

Pallet packing before shipment

### Inspection before shipment

In order to ensure high level of quality, and high customer satisfaction, we designed the 2-3 times QC check among manufactures in terms of product raw material, finishing and measurement.

And we will do final random quality check for each order and send customer quality reports (check out below example) before the product ship out to customers.

So far 95% of our customers, they are 100% satisfy on our products,.For those 5% unsatisfaction, we take quick actions on solutions. 100% of our customer likes our working attitudes, and loves working with us.
